

Md Moshiur Rahman

moshi.rahman066@gmail.com | +880 1701021612 | linkedin.com/in/moshi066 | moshi066.github.io

Technical Skills

- **Programming & Frameworks:** C#, .NET Core, Go, Laravel, C/C++, QT/QML, SwiftUI, Xamarin, React Native, Next.js, TypeScript, WPF, WinForm
- **Databases & Cloud:** PostgreSQL, MySQL, MS SQL Server, AWS EC2, S3, SES, Lambda, Docker, Github Actions
- **Practices & Concepts:** SOLID, Clean Architecture, Microservices, REST APIs, Socket Programming, Concurrency, RBAC, Distributed Systems

Experience

REEA Digital Limited, Dhaka, Bangladesh

Dec 2022 – Present

Software Engineer → Senior Software Engineer

- **Architected** a 29-module industrial ERP, deploying a multi-tenant .NET Core backend on **AWS EC2** and maintaining TypeScript frontend interfaces.
- Designed backend services with **.NET Core** and **Stripe**; implemented **idempotent subscription workflows** handling thousands of transactions.
- Built email verification service in **Go** using bounded worker pools; handled **8k daily requests** and **reduced P95 latency 75%**.
- Developed mobile apps with **React Native, QT/QML, Kotlin, SwiftUI, Flutter**, improving stability and user reach.

Enosis Solutions, Dhaka, Bangladesh

Apr 2021 – Dec 2022

Software Engineer

- Refactored legacy desktop apps to **MVVM (WPF)**, improving UI latency and reducing memory usage; resolved 50+ concurrency and deadlock issues.
- Updated features in a **.NET** desktop application controlling heavy machinery via socket connections.
- Conducted R&D initiatives, including crash dump generation for a leading gaming accessory company.

Projects

- **Texera (.NET Core, AWS EC2, TypeScript):** Architected a resilient, multi-tenant backend with strict RBAC delivering **29+ core modules** (BOM, Costing, Master Data); orchestrated high-availability cloud deployments and maintained dynamic frontend interfaces to ensure scalable enterprise operations.
- **Youmio (.NET Core, Stripe):** Integrated **subscription payments** and in-game store; built CMS backend with Next.js.
- **Arabic Unlocked (React Native, Expo, TypeScript):** Developed **Duolingo-like app** for learning Arabic with interactive lessons.
- **Educube (Laravel, Xero, Dropbox):** Integrated Dropbox for file management, Xero for invoicing, and enhanced CMS back-end features.
- **Email Verifier (Go, PostgreSQL):** Built scalable backend with **parallelization** and role-based authorization; **reduced processing time 75%**.
- **Pow Pow (C++, QT/QML):** Cross-platform QR-based food ordering app; implemented **real-time bill splitting logic**.
- **Cianflone Scientific (.NET, Socket Programming):** Updated heavy machinery desktop app; revamped UI with WinForm.

Achievements

- Solved **1,900+** algorithmic problems; Codeforces rating **1864 (Expert)**.
- Top national placements (**2nd, 9th, 11th**); problem setter and judge for national competitions.
- Mentored at **RUET Analytical Programming Lab**; **IELTS Academic: 7.5**.

Education

Bangladesh University of Professionals

MBA (Professional)

2025 – Present

Rajshahi University of Engineering & Technology (RUET)

B.Sc. in Computer Science & Engineering

Rajshahi, Bangladesh

2016 – 2023
